I don't have a 213 RR handy. Can you email me a copy?

Hi Tim,

We have a process established for adding funds to contracts. You'll need to create and route the 213RR through it's normal process. If you want, Kellon can go ahead and get the PR created to the moment we get the 213 RR final we can authorize the PR in EAS. Take a look at the attachment and let me know if you have any questions.

If you need any help filling out the 213RR just come on down to the REOC. Thanks!!

Great,

Is there a person to coordinate with to get some additional funds assigned? I have been working with Kellon Pearson previously. We are close to completion of all assigned targets but are at the end of the funds by the cost estimation sheet. Three more days at the current burn rate should be sufficient.

Hi Tim,

This is indeed the correct box. Thanks for the info!

Hello,

Paul Kudarauskas indicated I should be sending the cost tracking spreadsheets the this email address. Please let me know if this is the correct place to forward the estimation tool. The actual costs have not been billed and may vary from the estimation.
